

hello

I'm Auriane Leclercq

I've been studying Scenography for 3 years at ENSAV La Cambre in Brussels. I am passionate about performing and spatial art. I enjoy applying my dramaturgical inquiries to my artistic practice. My work is closely linked to theater and arts, and I enjoy creating performance spaces. I am open to all types of art and particularly appreciate when that prompts me to reflect.

education

- 2021-2024
Scenography - ENSAV La Cambre, Bruxelles
- 2019 - 2021
International Cooperation - HEPN, Namur

experience

- 2024-
Scenography for RAFAJ collective
With passionate friends, we formed a theater collective and staged our first original play. The play was written by a member who holds a master's degree from the Royal Conservatory of Brussels. As for myself, I handled the set design, lighting design, and stage management.
- 2024-
Set design for a fashion show organized by the City of Brussels,
As part of the 'Art+People' project organized every two years by the City of Brussels, a fashion show open to everyone is held in the city. The project aims to bring residents together around an artistic event. This time, it's a fashion show organized in collaboration with the artist Ahilan Ratnamohan, blending football and dance. I participated with 7 other Scenography students in creating the venue's scenography for the performance and fashion show, which will take place in October 2024
- 2024-
3D modeling for Yoel Pytowsky
I did the 3D technical plans modeling for a project by the artist Yoel Pytowsky, who is a visual artist creating museum and sculptural installations.
- 2023-
Scenography for performing art space
Low-budget scenography created within for a performance space project at La Cambre. The aim was to provide artists with a venue for expression in front of an audience.

skills

- 3D Modeling : Model making, laser cutting, woodworking/metalworking workshop basics.
- Sketchup
- Vectorworks
- Blender
- Coding foundation in HTML, CSS, and JavaScript
- Adobe creative suits
